

Making Darlington a Safer Place to Live

The Safer Homes Project is collaborative working between County Durham and Darlington Fire & Rescue Service, Durham Constabulary, Darlington Partnership and Neighbourhood Watch / community based volunteers with the aim of assisting isolated and vulnerable residents to improve safety and wellbeing in their home.

Do you know that the fire service, police & county council can provide free advice and resources to help make your home safer from fire & crime?

To find out more or to tell us about a vulnerable neighbour, friend or relative who might benefit from this service please get in touch.

Safer Homes Referral Guide
